IBSOPHONE

CHANGE OF PRODUCT UW-connector for Ibsophone

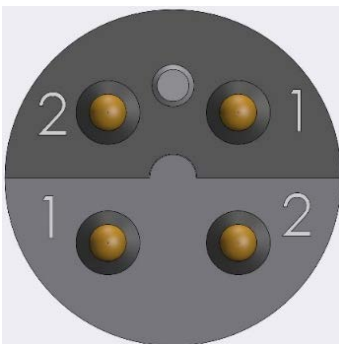

Products Affected: 30 526-01→06 - 12,5 mm lifeline
30 527-01→05 - 10,5 mm lifeline
30 711-51→53 - Lifeline MTIII, yellow NL
IBS0126-01→05 - Lifeline neutral with chinese finger
IBS0127-01→04 - Lifeline neutral, yellow, with chinese finger
336 290 953 Lifeline MT2/3 KEV 80 m BW
336 290 954 Lifeline MT2/3 KEV 120 m BW
33 559-11→17 IBS Com Cable MT2/3
30 524-01 - Bone conductor MTII and MTIII (Red mic)
30 718-51 - Microphone IBS MTIII. NL
336 290 955 Microphone IBS MTII/MTIII
336 300 009 Microphone/Bonecond unit MT3
30 716-52 - Bone conductor IBS MTIII. NL
336 290 957 - Bone conductor MTII/MTIII

The underwater connector previously used for our lifelines, communication cables, microphones and bone conductors from Seacon has been exchanged in favor of underwater connectors from Subconn.

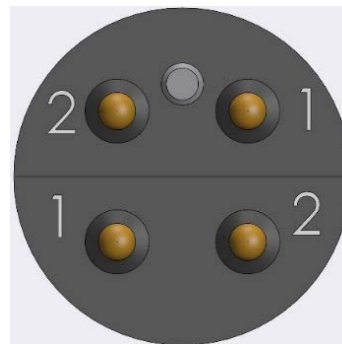

Reason for the modification is due to change of the delivery conditions, which means a much longer delivery time. The change would eventually also affect the lead time for the customer.

The underwater connector from Subconn is compatible with the one from Seacon, which means that the old products will work together with the new products with underwater connector from Subconn.

The only interference is a bulge on the microphone cable which may affect the use of an old microphone together with a new bone conductor.
